- Rail Baltica is a rail transport infrastructure project with a goal to integrate the Baltic States in the European rail network. Construction of the 870 km passenger and freight route is underway in different stages, with the aim to open the mainline for traffic in 2030.
- There are many procurements underway and coming up, ranging from construction to rail technology and rolling stock. In order to help facilitate participation from Swedish suppliers Business Sweden in collaboration with the Estonian procurement entity Rail Baltic Estonia are inviting companies to take part in a unique one-day visit to Tallinn on **14 November 2024**:
  - Hear firsthand from Rail Baltic Estonia about the procurement process and upcoming opportunities
  - Meet, ask questions and interact with Rail Baltic Estonia representatives
  - Present your solutions
